

Experiment 3: Creation of a Simple Network Topology Using Open-Source Network Virtualization Tools

Objective

To create and configure a simple network topology using an open-source network virtualization tool and verify communication between the virtual network nodes.

Task

- Ubuntu Linux Virtual Machine
- VirtualBox
- Mininet
- Create Network Topology on each type with 2 different type of node numbers.
- See links and ping with basic Linux networking commands
- After completion, stop the network.
